

## **CRAIG TREWET**

### **Director, Airplane Development and Electrical Systems Boeing Commercial Airplanes**

In December 2014, Craig Trewet accepted an additional role as director of Fabrication Airplane Development. In this assignment he will lead Fabrication in an effort to provide leverage for competitive advantage and shape the production system strategy. In addition, he will continue to lead the Electrical Systems Responsibility Center in Everett, Washington, a role he has been in since January 2013.

Prior to his current position, Craig served as director of Boeing Salt Lake in Utah. He came to Boeing Salt Lake from Renton, Washington, where he was the senior manager of Safety, Certification and Performance Engineering on the Next-Generation 737 program.

Craig was born in Ogden, Utah, and earned a Bachelor of Science degree in mechanical engineering technology from Weber State University and a master's degree in business administration from Seattle University in 1995.

He serves on engineering advisory boards at Weber State University and on the University President's National Advisory Council. He also serves on the board of directors for the Utah Manufacturing Association and on the board of trustees for Bloodworks Northwest.

Craig is married and has three children. He is active in running, coaching sports, volunteering in schools and scouting and with the American Cancer Society.
