

2024 Senior Graduation Cord Program

2024 high school seniors who register to donate blood four or more times during their high school career earn a red graduation cord to wear during commencement events* to be recognized for their commitment to providing life-saving donations. Donating blood is an opportunity for students to give back to the community.

- Seniors must complete the requirement by May 15 (or by the date of their school's final blood drive of the year).
- Students can qualify by registering to donate blood at any BWNW sponsored locations, including their high school blood drive(s), community blood drives, or donor centers.
- Start by downloading the donation tracking form (below). Once you have completed your fourth blood donation, scan or take a legible photo of this form and email it to studentincentives@bloodworksnw.org.

*It is your responsibility to check with your school if wearing your red cord is acceptable for graduation celebrations.

Name (first and last): _____ Donor ID: _____

Address: _____

Email: _____

Phone: _____

High School: _____

Donation Date

Location (Name of Drive or Center)
